

REMARKABLE CASES.

ENDS, RECORD-UNION. In the WEEKLY UNION of August 18th I notified an item headed "Singular Case"—a Placer county physician's account of a boy patient that he attended at Poland Corner, who from a slight abrasion of the knee continued to bleed for three weeks, and was then stopped with great difficulty. Also, that all the boys in the family are subject to the same style of bleed, and one has just lost his life. Now, as singular as it is, I will state, as briefly as possible, that it is not unprecedented. Many years ago I knew a family in Cherryfield, Me., afflicted in the same manner, with slight variations. At the time of receiving a call, or otherwise breaking the skin, they would bleed no more than ordinary men, but in nine days would burst out bleeding frightfully, and if stopped, which was almost impossible, would burst out in another place and bleed until the blood would hardly color a white cloth. Only certain members of the family were "bleeders." I think it was every third boy, but am not certain. As far back as I can remember, I always understood that the bleeding ones were never known to die any other death, although living to be quite old, and being almost to death many times, and recover, only to bleed to death some future time. The same family had been passed down from one generation to another, as far back as known. I attended school with two brothers, Curtis and James Tracy, both "bleeders." Their mother was a widow (her husband having died from the same cause), and in constant fear of their meeting with some accident to cause bleeding, tried to prevent their carrying pocket-knives. I was in Cherryfield in a mill pond with the two brothers, when one cut his foot with a clam-shell. He was badly frightened, and his brother scolded him for not keeping his socks on. In nine days he commenced bleeding, and came near dying. Several years afterwards they both died from loss of blood within two weeks of each other. One brother, while chopping split timber in the woods. The family in Placer county is quite likely of the same stock. Since living on the coast, read of a family in France troubled in the same manner. Respectfully,

L. L. LYNCH.
Powers, San Diego county, Cal., September 7, 1883.

SCIENTIFIC NOTES.

A chemist named Dittmar has discovered a process of solidifying coal oil, and arrangements have been completed at Baku, Russia, for manufacturing candles from kerosene, which will have greater illuminating power than tallow and can be sold much cheaper.

For the treatment of both hard and soft corns Dr. Traill Green speaks highly of the use of salicylic acid. He has adopted a formula recommended by Dr. Green, which is as follows: Salicylic acid, 30 parts; extract Canadensis, 5 parts; collodion, 240 parts. The collodion fixes the acid on the corn, and the extract gives speedy relief by protecting it from friction. The Canadensis acts as an anodyne. The acid loosens the corn so that it comes off in four or five days, adhering to the collodion. If any portion of the corn remains, the acid should be reapplied again, and the treatment continued until the whole of the corn has disappeared.

A flutter has been caused in scientific circles by the announcement in the *Union Medique* of Paris of the discovery, on piercing a new gallery in a coal mine at Bully Grenay (Pas-de-Calais), of a series of very remarkable caverns. In the first were the intact fossil bones of a man, two women and three children. Beside them were petrified pieces of wooden utensils, remains of mammals and fish, as well as stone weapons. A second subterranean cavern revealed eleven bones of gigantic size, the fossils of several animals, and a great number of various objects, including precious stones. Into a third and larger chamber the miners could not enter on account of the carbonic acid it contained. If all this turns out to be as true as it appears to be, the existence of prehistoric man is a stern fact even to the most skeptical.

A new method of rendering the skin insensible in those operations which do not admit of chloroform by inhalation has been described to the French Academy of Sciences by Jules Guerin, who cites a case in which he had employed it to advantage. A lady, aged 60, consulted him for a tumor of eight years' standing, which, on examination, proved to be a scirrhus. The general health was bad, bronchial and cardiac troubles were very manifest, and the kidneys were not in a very satisfactory condition. However, the operation was urgent. Chloroform having been considered dangerous, M. Guerin applied around the tumor a circular layer of Vienna paste, limited by a double band of diachylon. At the end of twenty minutes the caustic was removed, leaving in its place a black ribbon-like line. The knife was then applied, and the tumor removed without the slightest pain to the patient, who did not seem to be aware of the operation. The results were all that could be desired.

POSTOFFICE SECRETS.—The Nevada Transcript furnishes this:—
Our readers will remember that after his first escape Joe Lawrence's recapture was effected by means of information obtained from the Postmaster at an office in this county through which he was corresponding with a friend. Since then the Post-office Department decides that a Postmaster must decline to disclose any private information received by him in his official capacity. A Postmaster who declines to do so, shall write to me to forward it to him or another office, I shall be justified in disclosing his address. The decision was based upon this inquiry. Many Postmasters have hitherto given valuable assistance to the police detectives by disclosing private information.

"ASK MY HUSBAND."—The following is given by the Nevada Transcript:—
Dora, the tattooed woman, had great attractions for the hardy miners who visited Robinson's circus when it was here, and the older the hardy miners were the longer they were tempted to hang around her part of the tent. One of her admirers at Oakland had an experience that wasn't very agreeable. He was a hoary-headed old sinner, and after commenting in an audible tone of voice upon her personal charms, began talking to the girl, and asked that he might be allowed to feel her skin. "My husband is there"—pointing to a tall, muscular-looking man—"you had better ask his permission." On the girl's face the said husband was sufficient, and the aged Lothario slunk away amid the laughter of the audience.

SUCCESSFUL EXPERIMENT.—We find the following in the Chico Enterprise:—
G. M. Johnson, a farmer northeast of Nord, has told us of an experiment which he tried this year, which has proved successful, and is, we think, a matter of especial interest to the farming community. Mr. Johnson sowed broom-corn seed on his adobe land after it had been summer-fallowed. He did not harrow it in, but a rain came and covered it. It came up finely, and he has used the field for corn all the summer. The plant has turned green, so as to be very fine for his cows. This fall he has turned hogs in and they have devoured it, roots and all, so as to clear the field completely. He is much pleased with the experiment.

HORSFORD'S ACID PHOSPHATE, valuable in Indigestion. Dr. Daniel T. Nelson, Chicago, says: "I find it a pleasant and valuable remedy in indigestion, particularly in over-worked men."

"It is easier to convince a man against his senses than against his will." When a sick man has given Kidney-Wort a thorough trial, both will and senses join in unqualified approval of its curative qualities in all diseases of the liver, kidneys and bowels.

*Far more valuable than those golden apples of Hesperides are the life, health and beauty of Womanhood. Mrs. Pinkham's Vegetable Compound restores and preserves all these.

When we eat bread raised with Dr. Price's Cream Baking Powder, we are eating the wheat flour, in all of its nutritious efficiency. Physicians recommend it because, while making the white loaf deliciously palatable, it keeps the nourishing elements intact and whole. It has proved itself for years to be the best and safest.

CHILLS, MALARIA, DUMB AGUE and all kindred diseases are absolutely and permanently cured by Mason & Pollard's Pills. This remedy is a never-failing specific for these ills, purifies the system and restores the patient to perfect health. Druggists.

MISCELLANEOUS.

A POLICEMAN'S DUTY.

Policeman Ed. K. Heath, 29 North street, Portland, Me., May 11, 1883, writes: "I have been troubled for a good many years with inflammation of the bladder, dating as far back as during the time I was in the army. I suffered with it, heavy pains in the back and kidneys, and it kept the nourishing elements intact and whole. It has proved itself for years to be the best and safest."

I never fail to recommend it, and you are at liberty to use my name in any manner you may desire. JOHN W. JOHNSON, Norwich (Conn.), May 7, 1883.

NO MATERIAL CHANGE.

This is to certify that I have used Hunt's Remedy for the kidney complaint, and derived much benefit from its use.

I have been afflicted about one year, and received treatment from the local physicians, and used a number of so-called specifics without any material help. I am happy to say, after using three bottles of Hunt's Remedy, I am completely cured.

I never fail to recommend it, and you are at liberty to use my name in any manner you may desire.

NORWICH (Conn.), May 7, 1883.

Ayer's Cherry Pectoral.

COLDS. "Having been subject to a bronchial affection, with frequent colds, for a number of years, I hereby certify that AYER'S CHERRY PECTORAL gives me prompt relief, and is the most effective remedy I have ever tried."

JAMES A. HAMILTON, Editor of The Crescent.

COUGHS.

"Mt. Gilead, Ohio, June 26, 1882. I have used AYER'S CHERRY PECTORAL this spring for a cough, and it has done me much good, and I am pleased to recommend it to any one suffering with it."

HARVEY BATESMAN, Proprietor Globe Hotel.

BREAKFAST.

"By a thorough knowledge of the natural laws governing the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided his breakfast table with a delicately flavored beverage which will save you many heavy doctor's bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Sufferers from indigestion, loss of appetite, and all diseases arising from impure blood, or any imperfect action of the stomach or liver, will find relief in Epps's Cocoa. It is a perfect food, and a property nourishing food." (Civil Service Gazette.)

Made simply with boiling water or milk. Sold in use only (1 lb. and 1 lb. 2 oz. tins), labeled thus: JAMES EPPS & CO., Homoeopathic Chemists, London, England.

San Francisco Depot: RICHARDS & HARRISON.

I WONDER.

He kissed me—and I knew 'twas wrong,
 For he was neither kind nor kind.
 He said to me, "I'm not a saint,
 But I'm not a saint either."
 He said to me, "I'm not a saint,
 But I'm not a saint either."

He said to me, "I'm not a saint,
 But I'm not a saint either."
 He said to me, "I'm not a saint,
 But I'm not a saint either."

He said to me, "I'm not a saint,
 But I'm not a saint either."
 He said to me, "I'm not a saint,
 But I'm not a saint either."

He said to me, "I'm not a saint,
 But I'm not a saint either."
 He said to me, "I'm not a saint,
 But I'm not a saint either."

He said to me, "I'm not a saint,
 But I'm not a saint either."
 He said to me, "I'm not a saint,
 But I'm not a saint either."

WEEKLY UNION.

Announcement
 —TO—
SUBSCRIBERS
 —TO THE—
Weekly Union.

Changes have been made in the form of the
 WEEKLY UNION, all tending to enhance its
 value to the subscriber, to enlarge its use-
 fulness, increase its capacity to carry read-
 ing matter, and to elevate its character in
 all its departments.

—THE—
Weekly Union
 —HAS BEEN—
ENLARGED

From seven columns to eight columns
 per page.
 AND IS NOW A SIXTY-FOUR COLUMN
 FIFTY-SIX COLUMN PAPER.

With the enlargement to eight columns
 per page, an additional length to each
 column is secured, and
 The Aggregate Enlargement
 amounts to
Sixteen Columns Per Week.

Under the present arrangement, special
 and unparagoned editorial and other super-
 vision is given to the paper to make it

COMPLETE
 —IN—
All Its Parts!
 The result is that the WEEKLY
 UNION carries to its readers more
 reading matter of value than ever before in
 its history, and is presented in a man-
 ner that will prove far more valuable
 to the reader. With this enlargement and
 readjustment of the form of the paper
 there has also been a

REDUCTION
 —IN THE—
RATE OF SUBSCRIPTION!
 That its steadily-expanding circulation
 may be still further augmented. The sub-
 scription to the WEEKLY UNION is now only

\$2 PER ANNUM!
 Instead of \$2.50, as heretofore. At the
 reduced price it will be mailed, post-paid,
 to any point in the United States. With
 these changes and the enlargement

**Every Department is re-
 tained, and every feature
 that has distinguished
 the paper in the past.**

As heretofore it will carry all the news
 published from this office; will present as
 before matters relating to public topics,
 critical reviews, full and improved market
 reports, agricultural matter, statistics of
 progress and development; scientific, fash-
 ion, mechanical, industrial, religious, home
 amusement and poetical departments; choice
 miscellany, tales and stories, responses to
 correspondents, mining news, news of the
 coast.

Latest Eastern
 —AND—
COAST TELEGRAPHIC NEWS

Wheat, gold and silver quotations, sum-
 mary of news, letters from regular
 correspondents at home and abroad, con-
 gressional and legislative reports, reviews
 and notices of the most recent publica-
 tions, and all matters that go to make up a

FIRST-CLASS
Family, Business and News Journal.
 Price, \$2 per year; \$1.25 for 6 months;
 75 cents for 3 months.
 A liberal commission will be paid to all
 Postmasters.

PACIFIC COAST ITEMS.

The Napa jail is said to be haunted.

Santa Ana thinks of starting a Republic paper.

Glanders is prevailing among the horses of Fresno.

Crop prospects throughout Montana are most encouraging.

Mackay telegraphs that he will be on the Pacific coast in a few days.

Land frauds are said to have been discovered in Santa Cruz county.

A Truckee man and his son are married to two sisters. Both have children.

The corner-stone of the new University Church at Los Angeles was laid Friday.

A certain Carsonite is having himself a \$250 seal-skin overcoat built in New York.

On Tuesday, in Chico, Mollie White was held to answer for the murder of Riley Strahl.

Two Indians, who killed a Chinaman at Chualar, B. C., last spring, were hanged Friday.

Dr. G. A. Shurtliff, Superintendent of Stockton Insane Asylum, has tendered his resignation.

The Victoria Colonist, referring to Pierre-pont's annexation talk, calls him a sucking-statement.

A Board of Inquiry at Vallejo is investigating charges of irregularity against Foreman Harrington.

Out of a lot of 208 hogs, being driven from Stony Creek to Colusa, last week, 82 died on the plains.

William Altnow, of Otis valley, Or., was bitten by a rattlesnake recently. It is thought he will recover.

The swindler who sells the rock that prevents coal-oil lamps from exploding has worked Sonoma successfully.

William Whitestone, an Indian chief, has been murdered in Washington Territory, by William Jackson, a half-breed.

The Central Pacific Railroad Company is erecting a water-tank at Winnemucca, Nev., that will hold 52,000 gallons of water.

Important nickel ore discoveries have been made in Churchill county, Nevada. Specimens assayed yield thirty per cent. pure nickel.

Several new passenger steamers will be built on Lake Tahoe this fall, and competition promises to be lively on the lake next summer.

San Bernardino county has issued bonds in the sum of \$20,000 to pay off all warrants drawn prior to January 1, 1883, remaining unpaid.

Red Bluff is alarmed about a man who has been seen several times carrying a dark lantern through vacant houses and up and down dark alleys.

The Greenville Bulletin sounds the praises of the seal around Oroville for the raising of carmel and olives and the production of olive oil.

A number of fat hogs perished from the heat the other day while being driven from Horatito to Merced. Between thirty and forty porkers succumbed.

Mrs. Eads, of Pomona, has a pair of scissors that have been in use by her mother and her great-grandmother, and they are good scissors yet.

Dispatches from Moscow, Idaho, state the town is infested with hard characters. Several arrests have been made and some parties ordered out of town.

Chickering, says the Chico Record, is now one of the industries of the rancho, Chico. In its composition are used apples, watermelons, grapes and pears.

There is a poisonous weed in Gallatin county, M. T., which is death to sheep. When they eat it they become crazy, leave the band and run headlong into the water.

Dr. Bishop, Superintendent of the Nevada Insane Asylum, discharged his assistant Tuesday. The reason given was that he published a card in the Reno Gazette reflecting on the management.

It is stated by the Scott Valley News that the disease which has been killing off so many of the farmers' young stock in that neighborhood has been fairly investigated and pronounced to be diphtheria instead of blackleg.

Joshua Talbot, the oldest printer in the State, died at Suisun, on the Mojave desert, of heart disease, during the recent heated term. He was known throughout the State as "Lucky" Josh Talbot. He was 70 years of age.

The Bank of Woodland on Monday negotiated the largest and the best secured loan ever made in Yolo county. The loan was made to a syndicate of the leading citizens of the county, and the amount loaned was \$180,000, which will draw interest at the rate of 10 per cent. per annum.

A Los Angeles dentist claims to have invented an instrument by which, on application, the gums of the mouth at the place applied become numb and insensible to pain, so that the teeth can be extracted easily and painlessly, and without resorting to the dangerous anesthetic usually employed by the profession.

STAGE-SCHOOL GIRL.—The following is from the Nevada Transcript of September 12th:

A strolling troupe of variety actors and actresses, hailing from the town of Truckee and styling themselves the Pavilion Dramatic Company, have been "doing" some of the small towns in Sierra county and the upper part of this county. On the evening of the 7th and 8th instants they performed in Cummings' Hall, at North Bloomfield. Some of the young girls there seem to have been much impressed by the male "talent" of the outfit, and after they left town it was ascertained that a fourteen
